

## Podcasts

---

What is a Podcast? A podcast is an audio file that you can download to iTunes and listen when your schedule allows. The topics are limited only by the imagination of the creator—topics range from the arts to wedding planning. You can simply listen, or you can subscribe to them (many are free) so that new podcasts are automatically downloaded.

What is a Video Podcast? A video podcast is a podcast that has a video file with it so you can watch and listen.

Where can I find them? Below is a list of websites that provide podcasts you can subscribe to. Use Safari (not Firefox) for best results.
